SUMMARY

With a high sense of ownership and a keen willingness to learn, I bring excellent collaboration and communication skills to the table. Demonstrating problem-solving abilities, I offer a creative and analytical mindset, backed by 2 years of programming experience, particularly in JavaScript. With a solid foundation in HTML, CSS, and JavaScript, experience working with NodeJS, ReactJS, MongoDB and carrying git knowledge for collaborative work.

PROJECTS

Task Manager [code](#)

ReactJS, Reduxtoolkit, TailwindCSS, NodeJS, ExpressJS, MongoDB

- Task Manager is a web application designed for efficient task assignment, tracking, and collaboration which caters to both administrators and regular users.
- Implemented features: role-based access control, users profile and password updation, messaging, notification service for communication within the team.
- Implemented features: enabled users to attach assets to tasks, enabled users to create tags, priorities, sub-tasks for a task.
- Used Redux-Toolkit for effective State Management, used ReactJS, TailwindCss for frontend, Nodejs, ExpressJS for backend and MongoDB as database.

Snappy - A chat app [code](#)

ReactJS, Styled-components, NodeJS, ExpressJS, MongoDB

- Developed a chat application using websockets for serverless communication.
- Implemented features: Authentication, client and server side validation, dynamic avatar selection.
- Implemented messaging logic using socketio in nodeJS environment, dockerized the application.
- Used ReactJS, Styled-components for frontend, Nodejs, ExpressJS for backend and MongoDB as database.

Crypto app [code](#)

ReactJS, TailwindCSS, Firebase

Netflix Clone [code](#)

ReactJS, TailwindCSS

SKILLS

Languages: Java, Javascript

Frameworks: Reactjs, Nodejs, ExpressJS, Tailwindcss, Redux-toolkit

Tools: HTML, CSS, MongoDB, Mysql, Git, Docker

EDUCATION

2021 - 2025	Bachelor's Degree in Computer science	(GPA: 8.6/10)
2019 - 2020	Intermediate	(Percentage: 97)
2018	Class 10th	(GPA: 9.8/10)
